THE VICTORIOUS

"Gladiator."

A COMMITTEE of nine mechanical engineers employed by the Edward P. Allis Company, of Milwaukee, Wis., the most skillful manufacturers of engines and machinery in the world, after examining and testing thirty-six different makes of high grade Bicycles, pronounced the "Gladiator" the most scientifically constructed, easy running and highly finished bicycle in existence. Upon their judgment a large order for

GLADIATOR BICYCLES....

was placed, for the use of members and employees of that company. No test so severe and thorough as this has ever been made. Prospective buyers can be guided with safety by this decision. The "GLADIATOR" is truly a "WHEEL OF PERFECTION."

Thought the Machine Was Human.
A Georgia man who had made a flying machine offered a negro \$10 to make a trial trip in it. The negro agreed, got in position and he and the machine were hoisted by black and tackle about thirty feet above terra firma. When the rope was loosened the machine took a sudden slanting course toward earth and plunged into an adjacent mill pond. It disappeared with the negro beneath the water, while the terrified inventor stood shrieking for assistance. Presently the negro's head bobbed up serenely and he struck out for dry land. On arriving his first spluttered words were: "In de name er God, Marse John, why didn't you tell dat fool thing whar to 'light?"
